

INVESTOR PRESENTATION

AXON ENTERPRISE | February 2024

Safe-harbor statement

Forward-looking statements in this letter include, without limitation, statements regarding: proposed products and services and related development efforts and activities; expectations about the market for our current and future products and services, including statements related to our user base and customer profiles; the impact of pending litigation; strategies and trends relating to subscription plan programs and revenues; statements related to recently completed acquisitions; our anticipation that contracts with governmental customers will be fulfilled; the timing and realization of future contracted revenue; the fulfillment of bookings; strategies and trends, including the amounts and benefits of, research and development investments; the sufficiency of our liquidity and financial resources; expectations about customer behavior; statements concerning projections, predictions, expectations, estimates or forecasts as to our business, financial and operational results and future economic performance, including our outlook for 2024 full year revenue, stock-based compensation expense, adjusted EBITDA, adjusted EBITDA margin, and capital expenditures; statements of management's strategies, goals and objectives and other similar expressions; as well as the ultimate resolution of financial statement items requiring critical accounting estimates, including those set forth in our Annual Report on Form 10-K for the year ended December 31, 2023. Such statements give our current expectations or forecasts of future events; they do not relate strictly to historical or current facts. Words such as "may," "will," "should," "could," "predict," "potential," "continue," "expect," "anticipate," "future," "intend," "plan," "believe," "estimate," and similar expressions, as well as statements in future tense, identify forward-looking statements. However, not all forward-looking statements contain these identifying words.

We cannot guarantee that any forward-looking statement will be realized, although we believe we have been prudent in our plans and assumptions. Achievement of future results is subject to risks, uncertainties and potentially inaccurate assumptions. The following important factors could cause actual results to differ materially from those in the forward-looking statements: our exposure to cancellations of government contracts due to appropriation clauses, exercise of a cancellation clause, or non-exercise of contractually optional periods; the ability of law enforcement agencies to obtain funding, including based on tax revenues; our ability to design, introduce and sell new products or features; our ability to defend against litigation and protect our intellectual property, and the resulting costs of this activity; our ability to win bids through the open bidding process for governmental agencies; our ability to manage our supply chain and avoid production delays, shortages, and impacts to expected gross margins; the impacts of inflation, macroeconomic conditions and global events; the impact of stock-based compensation expense, impairment expense, and income tax expense on our financial results; customer purchase behavior, including adoption of our software as a service delivery model; negative media publicity or sentiment regarding our products; the impact of product mix on projected gross margins; defects in, or misuse of, our products; changes in the costs of product components and labor; loss of customer data, a breach of security, or an extended outage, including by our third party cloud-based storage providers; exposure to international operational risks; delayed cash collections and possible credit losses due to our subscription model; changes in government regulations in the U.S. and in foreign markets, especially related to the classification of our products by the United States Bureau of Alcohol, Tobacco, Firearms and Explosives; our ability to integrate acquired businesses; the impact of declines in the fair value or impairment of our investments, including our strategic investments; our ability to attract and retain key personnel; litigation or inquiries and related time and costs; and counter-party risks relating to cash balances held in excess of FDIC insurance limits. Many events beyond our control may determine whether results we anticipate will be achieved. Should known or unknown risks or uncertainties materialize, or should underlying assumptions prove inaccurate, actual results could differ materially from past results and those anticipated, estimated or projected. You should bear this in mind as you consider forward-looking statements. The Annual Report on Form 10-K for the year ended December 31, 2023, which we expect to be available on February 27, 2024, lists various important factors that could cause actual results to differ materially from expected and historical results. These factors are intended as cautionary statements for investors within the meaning of Section 21E of the Exchange Act and Section 27A of the Securities Act. Readers can find them in Part II, Item 1A under the heading "Risk Factors" in our Annual Reports on Form 10-K, and investors should refer to them. You should understand that it is not possible to predict or identify all such factors. Consequently, you should not consider any such list to be a complete set of all potential risks or uncertainties.

Except as required by law, we undertake no obligation to publicly update forward-looking statements, whether as a result of new information, future events or otherwise. You are advised, however, to consult any further disclosures we make on related subjects in our Form 10-Q, 8-K and 10-K reports to the SEC. Our filings with the SEC may be accessed at the SEC's web site at www.sec.gov.

Founder-led management team with track record of scaling new product categories

Rick Smith Chief Executive Officer & Founder

Josh Isner President

Brittany Bagley Chief Operating Officer & Chief Financial Officer

Aurora sonos KKR

Jeff Kunins Chief Product Officer & Chief Technology Officer

Cut gun-related deaths between police and public by 50% in 10 years

What is Axon's role? We are investing in:

Technology

Today

Advancing Axon's R&D pipeline Driving technology adoption

Training

De-escalating with confidence Virtual reality utilization

Learning from experience and data Greater efficiency and safety

Trust

Never miss a moment, body cameras

Response reporting data

Use of force data collection

Tomorrow

"All in" sector innovation Advancing less-lethal and robotic security

Evidence-based policies and practices

Differentiated value proposition

Technology platform revolutionizing public safety

Mission driven to protect life, capture truth, and accelerate justice

Market leader in cloud-powered integrated hardware and software for public safety

Strong market tailwinds — public safety spending is resilient and growing

Early penetration into a \$63 billion TAM and millions of global users

Subscription model with a 17k+ strong customer base and 122% net revenue retention

Attractive financial profile with high revenue growth, attractive gross margins, and significant profitability

Table of Contents

BUSINESS OVERVIEW

MARKET OPPORTUNITY

FINANCIAL OVERVIEW

PROTECT LIFE CAPTURE TRUTH ACCELERATE JUSTICE

Axon at a glance

TASER

TASER devices are the leading less-lethal option, at the forefront of de-escalation, and on the cusp of global adoption

AXON CLOUD

Best-in-class, cloud-powered software suite for digital evidence management, productivity and real-time operations

SENSORS + OTHER

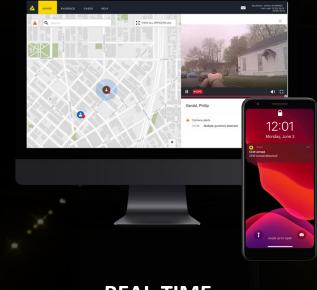

Market leadership in body cameras, in-car cameras, and sensors, that are mission critical for transparency and real-time operations

#1 cloud software suite for public safety

DIGITAL EVIDENCE MANAGEMENT

Software hub for **digital evidence workflows** – review, analyze, share, redact, and more

REAL-TIME OPERATIONS

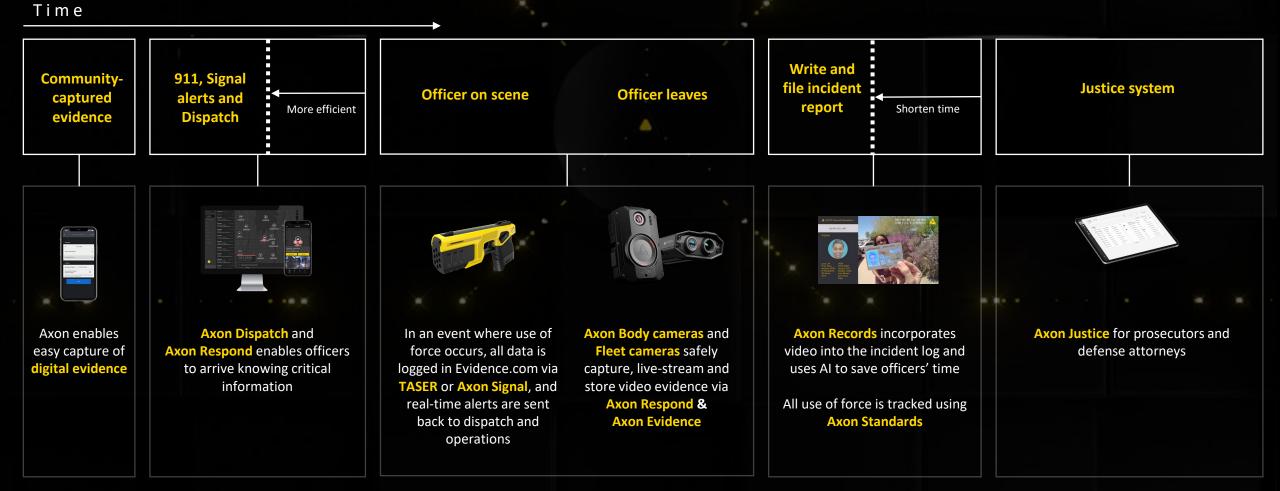

Real-time situational awareness leads to faster responses and safer officers

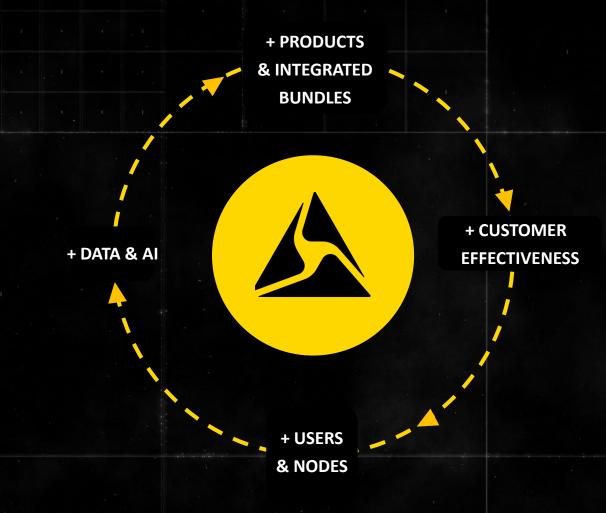

PRODUCTIVITY

Streamlining administration and reportwriting to save time and costs

Mission critical solutions from capture to courtroom

Powerful flywheel effects

Build **products and integrated bundles** that improve our customers' **effectiveness** to ensure everyone gets home safely.

This creates more **users** (aka people) and **nodes** (aka devices) on the Axon network that then creates more data that we can use to unlock more value from with machine learning and AI.

We use that to create even more great products and integrated bundles.

12

Strong customer franchise with compelling net revenue retention

Net revenue retention is as of most recent update and is defined as the software and camera warranty subscription and support revenue from a base set of agency customers from which we generated Axon Cloud subscription revenue in the last month of a quarter divided by the software and camera warranty subscription and support revenue from the year-ago month of that same customer base. This calculation includes high-margin warranty but purposely excludes the lower-margin hardware subscription contingent of the customer contracts, as it is meant to be a software-as-a-service ("SaaS") metric that we use to monitor the health of the recurring revenue business we are building. This calculation also excludes the implied monthly revenue contribution of customers that were added since the year-ago quarter, and therefore excludes the benefit of new customer churn. This metric is downwardly adjusted to account for the effort of phased deployments -- meaning that for the year-ago period, we challed the total control and therefore the total control by reference herein.

02

FINANCIAL OVERVIEW

Massive market opportunity

Our Total Addressable Market (TAM) methodology estimates annual potential spending on Axon products by considering total possible users in regions and markets we are selling into or that we intend to sell into in the near future (in each case), based on publicly available user data by job category from U.S. Bureau of Labor Statistics and other public sources, as well as current annual subscription pricing for existing products and estimated annual pricing for future products, based on an analysis of market-supported pricing. Note that with Axon's integrated bundles, under ASC 606, product (hardware) revenue is recognized upon shipment to the customer and service (software) revenue is recognized over time as a time-based obligation to the customer. The TAM, as presented, shows potential annual subscription spending. Subscription spending equals revenue recognized over the life of a multi-year contract, but spending and revenue do not always match up in the same year due to the timing difference between subscription-based payments and revenue recognizion. The Digital Evidence Management TAM products include Axon Evidence licenses and storage for both 1P and 3P devices. "Added software" includes Axon Feet software, including ALPR. Real-time operations includes Axon Respond, Axon Dispatch and Fusus.

Axon enjoys early TAM penetration & global expansion opportunity

		and the second	23.			
	U S	C O M M O N W E A L T H	EUROPE	LATIN AMERICA	ASIA

A X O N C L O U D S A A S	4%	4%	0%	0%	0%	ex

User adoption of TASER devices is still early outside of US state and local law enforcement. US federal penetration remains early.

02

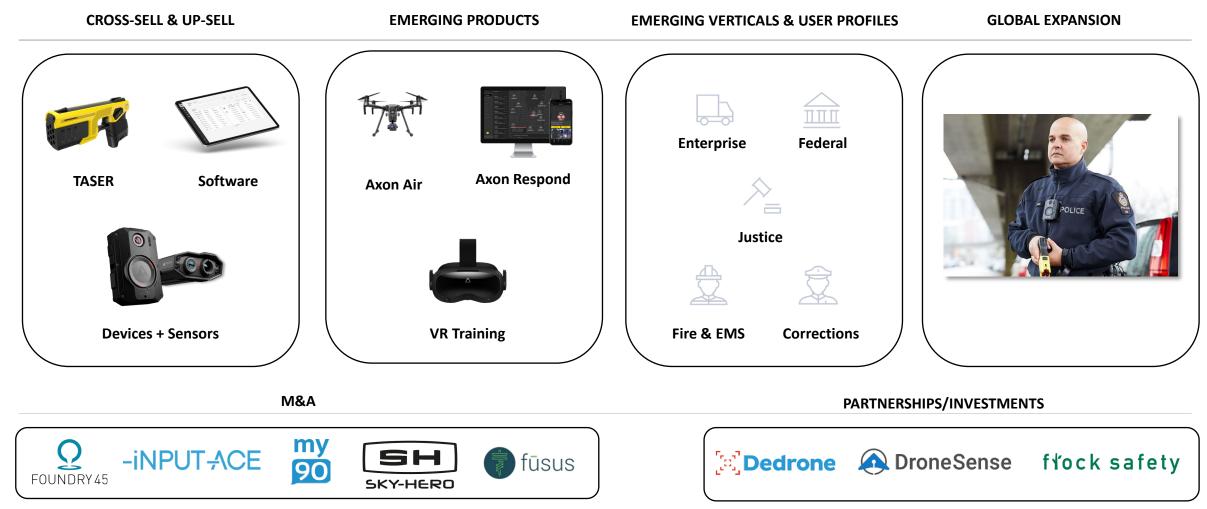

Body camera user adoption has been steadily growing since 2015 and is still several years away from market saturation.

Fleet in-car cameras enjoy wide growth runway. TAM assumes ~800K vehicles in scope for the US and ~650K internationally.

Here, we present Axon Cloud SaaS software *dollar* penetration (not user penetration). Axon's licensed users exhibit healthy revenue retention.

Our TAM penetration methodology factors in Axon's internal estimates for unit sales to date and software revenue to date, as well as potential users based on publicly available data. Commonwealth includes UK, Canada, Australia and New Zealand. Europe excludes UK. Asia excludes China and Russia. TASER, body camera and Axon Fleet percentages represent user penetration, while Axon Cloud SaaS represents dollar penetration. Personal protection, commercial enterprise, fire and EMS, Axon Air & AR/VR, and the Middle East and Africa are not reflected given estimated TAM penetrations of about 0%. Axon Cloud SaaS includes Digital Evidence Management, Productivity and Real-Time Operations. The US Vehicle count in scope includes ~420K State and Local Law Enforcement vehicles, and the rest is composed by State and Local Corrections in addition to Federal Law Enforcement, Corrections and DoD. Note: Percentages as of December 31, 2022.

Diversified growth opportunities along several vectors

U.S. public safety spending is resilient & growing

FY 2024 Guidance

	As reported Feb. 27, 2024
Full year revenue (2024)	\$1.88 billion to \$1.94 billion (20% to 24% annual growth)
Full year Adjusted EBITDA	\$410 million to \$430 million
Capital Expenditures	\$60 million to \$75 million

High financial visibility driven by strong ARR growth and recurring subscription bundles

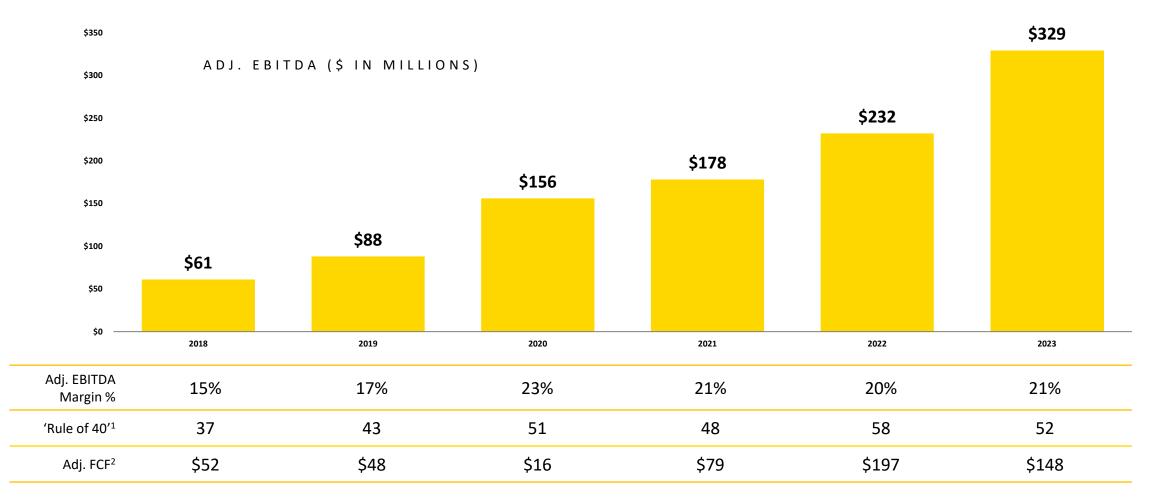

Total revenue from customers tied to subscriptions represents the percentage of Axon total revenue from customers on one or more subscription plans, including warranty plans, and excludes the percentage of Axon revenue from customers not on any subscription plan.

Strong, consistent growth with attractive gross margin profile

Healthy margins and increasing free cash flow

1. Rule of 40 is defined as revenue growth plus Adjusted EBITDA margin. Refer to the Appendix for the necessary non-GAAP reconciliation.

2. Adj. Free Cash Flow is a non-GAAP financial measure. Refer to the Appendix for the necessary non-GAAP reconciliation.

Officer Safety Plan 10+ Premium Integrated Bundle

Illustrative revenue recognition and cash flow schedule on a public safety contract for 100 officers

Years 1-5: Customer payment & cash flow averages inclusive of price increases + program start up fee and includes 4% annual increase. TASER hardware revenue recurs every 5 years. Camera and VR hardware revenue recurs approximately every 2.5 years. >90% of cash flows are reoccurring. Chart assumes a 10-year integrated bundled contract with built-in price uplift.
